Associate Degree in Systems Analysis and Development

Aug 2023 - Dec 2025 · Faculdade Metropolitana Unidas (FMU)

Fullstack JavaScript Program - OneBitCode

Essential HTML & CSS - Complete Front-End Course · Udemy

WORK EXPERIENCE

Front-End Developer (Freelance) - Jan/2026-April/2026

Photography Portfolio Website <https://kbphotographer.com/>

- Designed and developed a high-performance, responsive web application.
- Implemented a multi-language (EN/PT) interface for a global user base.
- Built the front-end using React, JavaScript (ES6+), HTML5, and CSS3.
- Integrated third-party services (HoneyBook, Pic-Time) into a React-based application, managing cross-origin embeds and maintaining consistent UI/UX across components.
- Applied component-based architecture and optimized UX, performance, and accessibility to improve engagement and conversion.

PROJECTS

• KBPhotograph

Project developed with a bilingual (EN/PT) interface, focused on delivering a professional presentation of photography services, structuring an online portfolio, and streamlining client contact.

• Game-library

Developed a dynamic game library application using React, focused on delivering an intuitive user experience for managing personalized game collections.

• Calculator

Developed an interactive calculator using HTML, CSS, and JavaScript, featuring multiple functionalities and customizable styling for an improved user experience.

• Restaurant Website

Developed an online pizzeria application using HTML, CSS, and JavaScript, implementing user interface design and interactive features.
