

# GABRIELA CARVALHO

**Front-End Developer (React)** · Araraquara, SP — Available for remote work

[gabriela.carvalho.tech@gmail.com](mailto:gabriela.carvalho.tech@gmail.com) | [linkedin.com/in/gabriela-carvalho-santos](https://www.linkedin.com/in/gabriela-carvalho-santos) | [github.com/GabbyCarvalho](https://github.com/GabbyCarvalho) | [portfolio.gcstudio.dev](https://portfolio.gcstudio.dev)

## SUMMARY

---

Front-End Developer focused on React and modern JavaScript. I deliver end-to-end freelance projects for real clients — from landing pages to institutional websites with CMS and third-party integrations — handling the full cycle: requirements gathering, development, deployment, and maintenance. Degree in Systems Analysis and Development (FMU, completed in 2025).

## PROFESSIONAL EXPERIENCE

---

### Front-End Developer (Freelance) — Client: Pedro & Naidhig Advogados — June 2026

*React · Vite · Sanity CMS · responsive design · SEO*

- Built a lead-generation landing page for a law firm specializing in vehicle repossession defense.
- Also developed the firm's institutional website, with content modeling in Sanity CMS.
- Structured the page with a focus on conversion (clear CTA, problem-oriented copy) and local SEO.

### Front-End Developer (Freelance) — Client: BYTEJB — May 2026

*3D printing and laser cutting · React · Vite · full visual identity (logo and palette)*

- Developed a website for a 3D printing and laser cutting service business, including creating the logo, color palette, and visual identity in collaboration with the client.

### Front-End Developer (Freelance) — Client: KB Photographer — January–March 2026

*React · Vite · integration with HoneyBook and Pic-Time*

- Built an institutional website and bilingual (PT/EN) link hub from scratch.
- Integrated third-party APIs (HoneyBook, Pic-Time) to automate the scheduling and photo delivery workflow for clients.
- Responsible for on-page SEO strategy, including meta tag optimization, content structure, and page load performance.

## PORTFOLIO

---

### Personal Portfolio — [portfolio.gcstudio.dev](https://portfolio.gcstudio.dev)

*React · React Router · deployment on a custom domain*

- Check out my portfolio to explore projects built with React, JavaScript, HTML, and CSS — web applications, landing pages, and responsive websites focused on usability, design, and performance. Site with bilingual (PT/EN) support, custom domain with HTTPS, and continuous deployment via GitHub Pages.

## EDUCATION

---
